NOTICE OF PUBLIC HEARING OF THE
FLORIN RESOURCE CONSERVATION DISTRICT
REGARDING THE PROPOSED ADOPTION OF
WATER CONNECTION FEES

NOTICE IS HEREBY GIVEN that the Florin Resource Conservation District Board of Directors will hold a public hearing to receive oral and written testimony regarding the proposed adoption of water connection fees. Water connection fees have two components: a capacity charge and a meter charge. A capacity charge, on new water system connections, to finance the costs of improving, constructing, or reconstructing water service facilities is necessitated by new development. A meter charge is the cost to install a meter, including the cost of the meter, the cost of labor to install the meter, and a 6% administrative fee to recover administrative expenses associated with new meter installations. A report titled "2018 Water Connection Fee Study Report" setting forth the estimated costs required to provide the services for which the proposed charges will be imposed is available for public review at the District offices located at 9257 Elk Grove Boulevard, Elk Grove, CA 95624.

The hearing will be held on **August 15, 2018 at 6:30 p.m. at the Florin Resource Conservation District, 9257 Elk Grove Boulevard, Elk Grove, CA 95624**. Written comments may be addressed to and filed with the Board Secretary at 9257 Elk Grove Boulevard, Elk Grove, CA 95624 at any time prior to the conclusion of the public hearing. Those persons desiring to orally comment may do so during the hearing. Upon conclusion of the public hearing, the Board may adopt ordinances establishing the water connection fees.
