Elk Grove Water District Fiscal Year 2017-18 Operating Budget
June 21, 2017

To: Florin Resource Conservation District Board of Directors
From: Mark J. Madison, General Manager
Date: June 21, 2017
Subject: **ELK GROVE WATER DISTRICT FY 2017-18 OPERATING BUDGET**

For your consideration, I respectfully submit the proposed annual Elk Grove Water District (EGWD) Operating Budget for the fiscal year beginning July 1, 2017. This proposed operating budget reflects a collaborative effort between staff and the Board, as well as allowing for input from the public during several developmental meetings.

The EGWD continued to be successful this past fiscal year (2016-17) in controlling costs to maintain financial stability. This was aided as EGWD revenues are anticipated to be higher than budgeted by approximately \$549,000. Overall, the bottom-line (Revenues in Excess of Expenditures) is projected to close approximately \$1,100,000 higher than the projection in the EGWD FY 2016-17 Operating Budget. The primary cost savings were achieved in salaries and benefits, office and operational, purchased water, and careful monitoring of expenditures throughout the year.

Salary and benefit costs during FY 2016-17 were down by approximately \$275,000 and this is largely due to unfilled vacancies and previous estimates that were over budgeted. The Employee Cost Control Program (ECCP) also continued to stabilize retirement and health care costs.

Office and Operational costs are projected to be approximately \$128,000 under budget and this is primarily due to lower costs associated with Chemicals and Water Conservation Materials.

Elk Grove Water District Fiscal Year 2017-18 Operating Budget

June 21, 2017

Expenditures for purchased water are projected to be approximately \$136,000 under budget. This savings is derived from reduced demands through enhanced water conservation despite an increase of 18% for purchased water.

The proposed FY 2017-18 budget is balanced and expenditures are projected to exceed revenues by approximately \$3,955. Revenues are projected to increase approximately \$580,000 in FY 2017-18, despite a mid-year increase in water rates less than the 2013 Water Rate Study approved by the Board on April 18, 2013. Information on this Rate Study and the anticipated rate increase is provided in the Financial Overview section of this budget document.

EGWD expenditures have been reduced to the maximum extent possible and to a level, which nearly matches forecasted revenues. These reductions are largely made in the estimated purchased water costs and the future capital investment accounts, previously referred to as depreciation and amortization. The proposed FY 2016-17 Operating Budget also reflects a 2.73% cost-of-living adjustment applied to salaries and related benefits.

Certain expenditures are expected to inflate, and the notable examples include medical costs (up 4.98%) and continued funding (\$10,000) budgeted for water conservation efforts. It should be noted that the medical costs would have otherwise increased by 10%, but that increase is tempered by selected employees who have now reached their cap under the EGWD defined medical contribution element of the ECCP.

This next year also updates the 5-year Capital Improvement Program (CIP), in which all capital expenditures will be assigned to specific projects. Notable projects for FY 2017-18 include the replacement of service connections and 4" water mains, , and the looping of selected water mains. Cost estimates for next year's projects are \$1,526,000 and this will be funded using capital improvement, replacement, and connection fee reserves.

The budget proposed will also adequately meet our required bond covenants for the duration of FY 2017-18.

In summary, the Elk Grove Water District will continue to maintain financial discipline during FY 2017-18 and this reflects a concerted effort by the Board and staff to maintain our customer rates and charges as low as possible.

MARK J. MADISON, P.E.
GENERAL MANAGER

BUDGET HIGHLIGHTS

FISCAL YEAR 2017-18

The Elk Grove Water District (EGWD) budget for fiscal year (FY) 2017-18 projects total operating revenues of approximately \$14.294 million and total expenditures of approximately \$14.298 million including Capital Improvement and Capital Repair & Replacement Reserve contributions of approximately \$1.7 million. The projected expenditures in excess of revenues are approximately \$3,955 which staff is recommending to be contributed by reserves. This budget includes a revenue adjustment of 3.0% starting in January, 2018.

Despite many non-discretionary cost increases, staff undertook exhaustive efforts to find cost reductions as well as minimize increases and these are reflected in the proposed FY 2017-18 budget. The proposed budget has an increase in total expenditures of \$576,519 (4.20%) from the adopted budget for FY 2016-17. The major highlights are listed below and comparisons made are against the budgeted amounts for FY 2016-17.

In order to improve transparency no such allocation is made to the General Manager's salary which caused an increase of 3.23% which also includes Longevity Pay.
 - Total benefits costs will increase \$18,190 (1.27%). Medical Benefits are increasing by \$34,874 (4.98%), Dental/Vision/Life Insurance is decreasing by \$3,332 (4.90%), Retirement Benefit costs are decreasing

ELK GROVE WATER DISTRICT FINANCIAL OVERVIEW

Introduction

The Elk Grove Water District (EGWD) is a Department of the Florin Resource Conservation District (FRCD). The FRCD acquired the Elk Grove Water Works in 1999 from a local family who had owned and operated the water utility as a private water company for 103 years. This acquisition changed the governance of the water utility from private ownership to a publically owned and operated agency. The FRCD also structured this agency as an enterprise-funded department of the FRCD thereby keeping all financial activities of the water utility separate from other activities of the FRCD.

The FRCD and EGWD are governed by an elected five member Board and advice from volunteer associate Board members. Board members serve four year, staggered terms. There are not any election costs are included in this year's budget. The Board of Directors delegates the daily operations of EGWD to the General Manager, who supervises the work of 30 staff members.

EGWD provides water to nearly 12,500 homes and businesses in Elk Grove. Much of the water supplied is produced by wells located throughout Elk Grove and the treatment and storage facility on Railroad Street. EGWD produces over 1.3 billion gallons of water each year providing supply to approximately two-thirds of the EGWD service area. The remaining area is supplied with purchased water from the Sacramento County Water Agency under a long term agreement. The EGWD also has a robust Capital Improvement Program which includes many projects to maintain outstanding customer service and water quality that meets all drinking water standards.

Accounting and Financial Practices

EGWD's accounting and budgetary records are maintained using the accrual basis of accounting. The revenues of the EGWD are recognized when they are earned and the expenses are recognized when they are incurred. The budget detailed in this document is used as a management tool for projecting and measuring revenues and expenses.

The Board of Directors and Staff of the FRCD/EGWD remain committed to prudent, conservative financial practices, with goals of continuing to reduce long-term debt and funding capital improvements on a pay as you go basis.

The EGWD has also completed efforts to review its rates and fees with the intent of attaining long-term stability and maintaining sufficient debt service coverage required by its outstanding bond covenants.

Current Financial Plans

Revenues are received entirely through water rates and fees. On April 24, 2013 a Water Rate Study was approved by the Board, subject to the receipt and consideration of protests and comments before and during a public hearing conducted on June 26, 2013. On June 26, 2013, the Board conducted the public hearing and adopted the rate study recommendations for a five-year rate structure. The water rate study recommended rate adjustments over the next five years beginning on January 1, 2014, as follows:

- January 1, 2014 - 3%
- January 1, 2015 – 3%
- January 1, 2016 – 3%
- January 1, 2017 – 3.5%
- January 1, 2018 – 4.5%

The rate adjustments are necessary to fund various projects and to pay for increased operations cost, primarily due to inflation. It should be noted that the Board of Directors decided to implement rate adjustments of 3% on both January 1, 2017 and January 1, 2018 as opposed to the 3.5% and 4.5% recommended in the rate study.

Long-Term Financial Planning

With the approval of the 2013 Water Rate Study, and associated rate ordinance, the EGWD has a five-year plan that provides for the stable funding of operations, capital projects and debt service. Within this plan, the EGWD restructured approximately \$32.3 million of outstanding bonded indebtedness in December 2014 and \$16.4 million in June 2016 to provide an average annual savings of \$194,000 over the remaining term of the debt. It should be noted that the District contributed \$1.5 million of reserve funds in order to reduce the remaining term of the debt by 13 years and maintain annual debt service savings on the refinanced bonds. This has assisted in mitigating revenue adjustments in both FY 2016-17 and 2017-18. It is anticipated that the next five-year rate study will be conducted in FY 2017-18.

Staff conducts a review of the expenditures and revenues on an annual basis to see if the scheduled rates can be mitigated if possible. The current review of the annual and projected expenses reflects that the scheduled revenue adjustment for January 1, 2018 of 3.0% should be reflected in the FY 2017-18.

Pension and other Post-Employment benefits

The EGWD's retirement program remains with the California State Public Employees Retirement System (PERS). The EGWD currently pays the employer costs and a portion (one percent) of the employees' tax-deferred member contributions to the system monthly. The EGWD provides post-employment healthcare benefits to retirees and their dependents. Two retired employees receive these benefits, which is financed through a trust fund that the EGWD funds on an annual basis. The EGWD pays the medical, dental, and vision insurance premiums for employees (and qualified spouse) that are enrolled in the health insurance plan. The current requirements for eligibility are: attaining age 55, having at least fifteen years continuous service, and retiring from the EGWD.
