JOIN THE DISCUSSION

In accordance with the Sustainable Groundwater Management Act (SGMA), a Groundwater Sustainability Plan (GSP) is being developed for the South American Subbasin (SASb). The SASb is located in Sacramento County, bounded by the American, Sacramento and Cosumnes Rivers. Your local GSP Working Group invites you to participate in this virtual meeting. It is preferred that you access the meeting and register through our website so that we can better communicate with you regarding future meetings: sasbgroundwater.org.

This invitation is sent on behalf of the SASb GSP Working Group (GSPWG) representing the following five (5) SASb Groundwater Sustainability Agencies:

- County of Sacramento
- Northern Delta
- Omochumne-Hartnell Water District
- Sacramento Central Groundwater Authority
- Sloughhouse Resource Conservation District

WHY YOU SHOULD BE INVOLVED

Join us and learn about the condition and future health of your groundwater subbasin. Participate in the process to understand what needs to be done to protect the quality and availability of this valuable resource. Learn why maintaining a sustainable groundwater subbasin matters to the economy, the environment, and the quality of life of our urban and rural communities. We need your input- [join us on November 5th!](#)
